

Sandeep Ladda

Partner |
Global TMT Tax Leader
PwC, India

sandeep.ladda@pwc.com

Background

Sandeep Ladda is the Global TMT (Technology, Media & Entertainment and Telecom) Tax Leader for the PwC Network globally. He is also the Technology Sector Leader (all Service lines) at PwC India and also, part of the Global Extended Tax Leadership Team.

Experiences

Sandeep has more than 25 years of experience in assisting various Multi-National Companies in the TMT sectors in setting up their Indian Operations while advising them on Tax and Regulatory implications including foreign direct investment structuring, tax efficient funding mechanism, business and financial restructuring, strategic advice in litigation matters, structuring joint venture arrangements and advising on tax risk mitigation strategies, resolving major Tax disputes with the tax authorities, etc.

Sandeep has been involved and has provided Tax advice to Vodafone, from inception, in relation to their US\$ 2.2 billion Tax litigation in India.

Sandeep appears frequently in the media to express his views on government policy in the TMT space and also on latest Tax and Regulatory developments, including key Tax controversies. He was ranked as the Top Global Spokesperson for the TMT cluster for Q2 2014. He is invited regularly by industry forums to provide Key Note industry address and to chair panel interviews on key TMT industry topics. He is a Chartered Accountant from the Institute of Chartered Accountants of India and also a Company Secretary from the Institute of Company Secretaries of India, apart from doing a management course from one of the premier India management institute (JBIMS). He has also done an Executive Education Programme with Harvard Business School.
