YIN SEMINAR | Thursday, 19 November 2020 | 15.00 – 17.00

Moderators

Claudia Suter (Switzerland)

Maikel Evers (Netherlands)

This year's YIN Seminar will be centered around the ramification of the current crisis. While there has been so much written about the measures Governments across the globe have taken, little has been said from a more forward-looking angle. The panelists at the YIN Seminar will dare to look into the crystal ball and consider what may be ahead of us. What will tax policies look like in the short-, mid- and long-term? How will these affect Governments, businesses as well as individuals and how do they contemplate (re-)acting? Will we see disruption stirred by any of the players in the international tax world? A survey conducted by YIN will provide additional insight.
